SAISD Assistant Dir. Environmental Programs

The SAISD Hazard Communication Program

Environmental Programs updates the “working draft” of the SAISD Hazard Communication Program (which includes the “Workplace Chemical List” (WCL)) annually. The written program includes:

- Responsibilities / Coverage
- MSDS / Container Labels
- Training / Personal protective equipment
- Posting Texas DSHS Employee Notice / Reporting Fatalities & Injuries
- Definition / Workplace Chemical List (WCL)
- Definitions / the SAISD WCL

The current SAISD Hazard Communication is available in pdf form or can be obtained by contacting Environmental Programs.

Safety Data Sheet (SDS) Access

MSDS / SDS for most hazardous chemicals / materials (e.g., those stocked by the Purchasing or Plant Services warehouses) are available on the SAISD SDS Digital Library .

MSDS / SDS for laboratory chemicals can be access through the Flinn Scientific “Flinn MSDS” website located at http://www.flinnsci.com/msds-search.aspx . If you cannot find an MSDS for a laboratory chemical contact the SAISD Science and Curriculum Management Department @ 210-354-4385.

If you need an MSDS for an SAISD chemical that you cannot find contact either Eddie Pena or Peter Swerzenski (Environmental Programs) at 210-554-2420.

See the Hazard Communication Q&A for additional information.
