Mission Statement

Secure external funding aligned with the mission and goals of the District.

Services Available

Grant Development & Administration is responsible for providing the SAISD with the opportunity to participate in grant programs through federal, state, local, and private sources. Assistance is provided in the following ways:

- Identifying funding sources and opportunities;
- Developing grants through custom-designed technical assistance;
- Facilitating design team meetings;
- Monitoring grant projects and assisting project managers;
- Providing a central location for development and dissemination of grants information;
- Assisting with grant compliance for federal, state, and other funding; and
- Distributing updates to Cabinet members, keeping them informed of recently awarded programs, proposals under development, and upcoming

The Scorecard

The Grants Department has initiated a new grant monitoring system that will allow grant program managers to evaluate grant progress through the use of the Scorecard. The Scorecard is a rubric that evaluates grant programs in the areas of:1) Knowledge of Grant Program, 2) Grant Budget, 3) Documentation and Communication, 4) Evaluation, 5) Collaboration, and 6) Timeline.The Scorecard is completed every nine weeks: **October 21st, January 20th, March 30th, and June 6th. The Scorecard can be accessed by clicking on the following link:**
