Science, Engineering and Technology Magnet at Highlands High School

Visit NASA, get a summer internship at Brooks City Base, learn how to work with a team through a ropes course out in the woods – all of this and so much more is possible through the Science, Engineering, Architecture and Technology Magnet. Through the technology classes, you will learn how to take apart and rebuild a computer. In Architecture you will invent your own business and design the building it would be housed in. Get ready for college with coursework that is rigorous but fun at the same time. You will take classes in state-of-the-art technology labs. If you are into technology or science, this is the magnet for you.

The MET– Manufacturing, Engineering and Technology at Sam Houston High School

Inventing a product, building something with computers and robotics, creating a computer system – these are just some of the things you can learn through The MET Magnet. Through partnerships with local colleges and large corporations such as AT&T and CPS Energy, this highly interactive program will put you in control of your future. With The MET, you can graduate high school with an Associate's Degree and begin your career immediately. San Antonio needs highly skilled candidates in all three of these fields. Get a jump on the competition with The MET.

Houston High School, 4635 E. Houston St., 78220, 210-661-4134

Fine Arts Magnet Academy at Jefferson High School

Are you creative? Do you have an active imagination? Then express yourself with the Fine Arts Magnet. This unique program offers a variety of outlets to guide you as you develop and cultivate your talent and interest in fine arts. Stage productions, dance, fashion design, music – if you are passionate about any fine art, this is the place to cultivate that passion. Motivated students excel beyond the basics through many advanced placement courses, gifted and talented programs, and various partnerships.

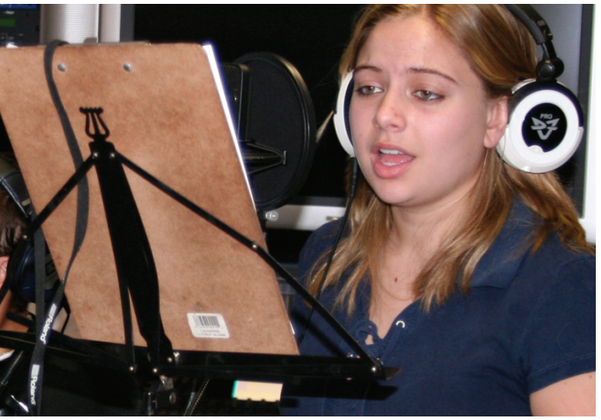
High School Offerings

SAISD offers a wide variety of choices in education, particularly through its specialized schools and magnet programs: encompassing over 15 different programs at 16 campuses, covering both middle- and high school. We understand that education is not a "one size fits all" package, so we offer a breadth of programs to allow students to develop their talents or pursue special interests and career goals such as science, technology, the arts, language immersion, law/legal professions, medicine, and much more.



These special learning programs are available to students across Bexar County, those living within and outside the SAISD District. Come find out more about our offerings, and find a program to ignite your child's passion for learning.

Media Productions at Brackenridge High School

Media feeds the world with information 24 hours a day, 7 days a week. It's a fast-paced, cutting-edge industry that requires an understanding of journalism, fine arts, graphic arts, radio, television, speech and music. Experience the excitement and non-stop energy of the world of media production. Produce a news show and put your own documentary together. Don't just get the news – make the news. The Media Productions Magnet is where you start.
