

**Parent Notification of Student Eligibility
in the Dyslexia Program**

School _____

Date _____

Name of Student _____

Grade _____

Dear Parent,

Your child was recently tested for eligibility in the Dyslexia Program. The results indicate that your child exhibits difficulty in reading performance. A school Dyslexia Committee has reviewed the test results and other information about your child and has qualified your child for the Dyslexia Program as part of the regular education program.

Should you agree, your child will be placed in this program and receive reading instruction in decoding skills in addition to the regular reading instruction. Please find the enclosed additional program information in the district dyslexia program brochure.

If you have any question about the testing results or the program, you are encouraged to call the principal's office or your child's teacher. Additional information about the program can be obtained by calling the Dyslexia Coordinator at 210-354-3635.

Sincerely,

Dyslexia Coordinator
