

# Using the Social Studies Website - Jeopardy

## Part 1: Downloading the Template to Your Computer

1. Go to the Social Studies Website at <http://www.saisd.net/ADMIN/curric/sstudies/main.html>
2. Click on Teacher's Desk
3. Click on the Hands-On Link
3. Click on the Jeopardy Template (PowerPoint) link.
4. When the file download popup appears, select the SAVE option so you can download the file to your computer.
5. When the save menu appears, select the area where you want to save your file and then click on SAVE.
6. Close your browser and then double-click on the jeopardy.ppt file which you just downloaded.

## Part 2: Working With Your Jeopardy Game

It is strongly suggested that you have generated 30 questions before working with the template.

1. On the right side of the screen is the main page.
2. If you highlight TOPIC 1 and change it to the title you want to use for that column.
3. Repeat the process for topics 2-6.
4. The numbers that are underlined do not need to be altered.
5. On the left side of the screen you will see a listing of the different screens.
6. Click on "Topic 1 Title - 100 Points"
7. Change "Topic 1 Title" to the title that you are using.
8. Change "Question" to the question that you want to ask.
9. Repeat this process for the remaining 29 questions.
10. SAVE your file.

# Part 3: Playing the Game

1. Go to the SLIDE SHOW menu and select VIEW SHOW.

2. Once a student has selected a question, click on the number to go to that question. Always use the numbers to navigate to the screens. If you click anywhere else besides the numbers, the game will advance to the next screen.

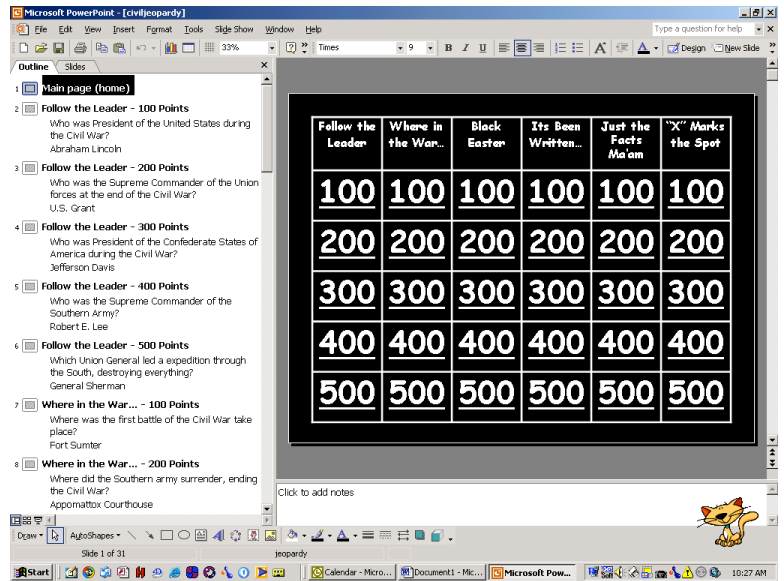

3. Once the question has been answered, click on the HOME symbol to return to the Main Page screen.

4. You will notice that the question that was just asked has been darkened so you know not to use it again.

5. Continue on with the game until all questions have been asked.

6. Press the ESC key on the upper-left portion of your keyboard.

7. Once the game has been completed, it is important to EXIT out of PowerPoint before playing the game again. If you do not EXIT, the numbers will remain darkened.
