

Internal Charter Application Timeline for the 2015-2016 School Year

October 1 - December 12, 2014

All in-district charter schools accept applications.

Schools may continue to accept out-of-district applications past the deadline if space is available.

March 27, 2015

Mail-out sent on a standardized letter notifying internal charter applicants of acceptance or non-acceptance.

April 17, 2015

Accepted students must return a letter of commitment to reserve their space for the 2015-2016 school year.

Enrollment Guidelines

- All students presently enrolled do not have to reapply.

- SAISD internal charter schools are open to students across Bexar County, though enrollment priority is given to students living within the neighborhood boundaries.
- Students presently enrolled who do not reside within the SAISD are required to submit an “out of district transfer” form every year.
- If space is limited at an internal charter campus, a waiting list is created and selection of students to open slots is completed through a lottery system by the campus if more applications are received than slots available.
- Cap and share procedures apply throughout the year.

Applications

General

Each student must submit a Charter School Student Application and an Internal Charter Terms and Conditions Form to each school they are applying to. These documents should be submitted directly to the charter campuses.
