

Mission Statement

The mission of the SAISD Plant Operations Department is to effectively and efficiently manage the custodial support, grounds maintenance support and pest control support of all schools and support facilities to ensure a functional and safe environment for all constituents in support of the Districts mission of becoming exemplary.

Vision Statement

Plant Operations will continue to work to improve its services at a continuous and measurable level until recognized by its customers as the service provider of choice. We will do this by

- delivering excellent services
- partnering with our customers in addressing their needs
- fulfilling our mission

Realizing that our employees are the most important part of the operation, we are committed to ensuring that our employees have the equipment, resources, and opportunities to contribute, learn, grow, and perform.

Goals

- Maintain our service oriented customer support and continually find ways to better meet our customers' needs
- Actively seek funding for technological upgrades on equipment
- Solicit and obtain timely customer feedback
