

About Us

The FP&C Office provides support for a variety of services in order to support the mission of Facilities Services and ultimately the SAISD. As a result of two successful bond programs (1997 & 2001), a full range of services have been developed and implemented to support these very critical and important initiatives. In addition, the FP&C office ensures the built environment is properly planned and safe by providing support in the various areas of Planning and Construction.

Mission Statement

The FP&C Office is committed in improving district physical facilities to support the teaching and support mission of the SAISD in quest for education excellence.

Vision StatementThe Facilities Planning and Construction Office is dedicated in establishing the highest quality of services to students, staff and stakeholders, and providing PF&C staff with the necessary resources to become the best in their respective fields.

Goals

- The FP&C Office provides Facility Planning, Demographics, Project Management, Facility Initiatives, Resources Management, and Environmental Services that supports the mission of the Division of Facilities Services and the San Antonio Independent School District.
