

Our goal is to provide you with accurate and timely information regarding PEIMS, the iTCCS student information system, and records requests. Please check back frequently as we are still in the process of posting training materials, useful links, news, and other items. We welcome your feedback for improvements and additions to this site.

Mission Statement

The mission of the **Office of PEIMS and Data Services** is to assist campuses and special programs using the iTCCS student system to submit high-quality PEIMS data to the Texas Education Agency. Our mission also includes providing student record archiving services to campuses and transcripts to former students. Our core values include customer service, accuracy, urgency, and courtesy. The

Office of PEIMS and Data Services

also performs the following activities in support of our mission:

- Providing District-wide training and documentation;
- Supporting District administrative staff in their use of student software applications; and
- Developing online professional development modules for use by district staff.

Registrars, Data Clerks, and Attendance Clerks:

You may sign onto this site to access your Training and Handbook Materials. Contact your Data Specialist for your login username and password.
