

Question: Which students are eligible for SAISD transportation as a related service?

Answer: Students who have cognitive limitations, physical limitations or emotional problems are eligible for transportation as a related service.

Question: Must a representative from SAISD Transportation be present at the ARD/IEP meeting in order to recommend transportation as a related service?

Answer:

NO.

The Department recommends that a school contact the Director of Transportation/Assistant Director of Transportation to have transportation personnel attend ARD/IEP meetings in the following situations:

□ Specialized school bus equipment is required to provide transportation services. □ A student with disabilities has severe behavioral problems and transportation is an integral part of the school-based behavioral intervention program.

Goals and objectives for transportation should be included in the BIP.

□

A student with disabilities is medically fragile and requires special care.

□

A student has an infectious disease that requires special precautions.

□ Special services/instructions, such as individual trips, restraints, isolation, are necessary.

Question: What is the procedure providing transportation to a student whose ARD/IEP committee recommends placement on a campus other than hi/her home campus?

Answer:

If the ARD/IEP committee transfers a student to another campus because the appropriate services are not offered at the student's home campus, the ARD/IEP committee completes the transportation supplement to provide transportation.

Question: □ What is the policy on providing transportation for students whose parent requests a

transfer?

Answer: Typically, a student who transfers to a campus other than his/her home campus at the request of the parent does not receive transportation.

However, the ARD/IEP committee may consider the appropriateness of providing transportation to the student.

Question: *What is the policy on providing transportation for students who attend a separate campus as a part of the continuum of services?*

Answer: If a student with disabilities is placed at a separate campus by an ARD/IEP committee as a continuum of service placement then a transportation supplement must be completed at the ARD/IEP meeting for student to receive transportation as a related service.

□

Question: *Do all special education students attending an alternative educational placement (AEP)*

receive SAISD transportation as a related service?

□□□ **Answer:** NO.

Special education students who were eligible to receive transportation services prior to placement in AEP may continue receiving transportation service. Students who were not eligible for transportation as a related service prior to placement in AEP are treated as general education students and are responsible for their own transportation.

□

Question: *□ Is the ARD/IEP committee required to follow the transportation recommendation from a previous school district?* **Answer:** NO. The ARD/IEP needs to consider all factors in determining eligibility for transportation as a related service.
