Lowell Is “Raising” Progress to WIN!

Raising Cane’s was generous enough to offer another incentive for the end of the year and Lowell Middle School was in the lead the entire time. Mr.Vega has a strong group of students that stayed motivated throughout the entire competition. It started right after testing, April 27th, and ran until Friday, May 15th. The class as a whole did, 875 lessons and received a bonus of 390 for a total of 1265. The MSP students at Lowell truly worked hard to stay in the lead for the entire 3 weeks. They will have their celebration on Wednesday afternoon.

Awesome Job Lowell MSP!

Our MSP Student of the Week is Yamilet S. from Whittier Middle School.

“Yamilet S. is truly a student who embodies the spirit of the Middle School Partners Program. She came into this year determined to achieve as much as possible and she has exceeded well above expectations throughout the year. On a regular basis, Yami leads the pack not only for her Partners Class at Whittier but for MSP across the district. She has earned credits for Reading A&B, Health, Environmental Systems A&B, Writing A&B, Art A&B, Psychology, Sociology, and Spanish. These credits were obtained through hard work in the classroom and also at home on evenings and weekends, showing a true determination to be successful. Not only is Yami successful in her own endeavors, she is also a leader in the classroom. She is MSP Student Council Vice President, and she always serves as a positive role model and motivator for the students around her. Next year Yamilet will be attending Travis Early College High School to earn credits at San Antonio Community College while taking her high school courses.

We can’t wait to see where the future takes her!”
