

# SAISD Safety and Extreme Weather Emergency Plans

This handbook is to provide coaches and administrators guidelines in case of severe weather conditions. Severe weather and emergency situations may arise at any time during athletic events. Since weather is unpredictable, you can never give exact guidelines. Good common sense should also be utilized. Severe weather is defined as any weather-related situation requiring all athletes and spectators to move to safe shelter. Expedient action must be taken in order to prevent life-threatening conditions. Student safety takes priority over the completion of an athletic event.

Coaches and administrators are advised to review the following guidelines in order to be prepared should a severe weather situation arise.

### **Athletic Safety and Compliance Coordinators**

Jacob Reyna, Head Athletic Trainer, Burbank High School

Bobby Luce, Head Athletic Trainer, Lanier High School

Charles Young, Head Athletic Trainer, Jefferson High School

Jenny Therkelsen, Asst. Athletic Trainer, Burbank / Brackenridge High School

## **Lockdown**

**In the event of a lockdown situation occurring during practice or game, coaches will follow the SAISD procedures for lockdown. Athletes and coaches of opposing teams will be led by the coaches of the home team to a safe area.**

## **Lightning Policy / Safe Shelter**

The UIL Lightning Safety policy will be followed.

If severe weather and / or lightning are detected, an announcement will be made to clear the fields and proceed to safe shelter. Safe shelter locations are listed in the table for each school or activity site.

Athletes and coaches will proceed to the nearest building. The coaches will provide an area for visiting teams and coaches. Spectators must be advised to clear the fields and proceed to safe shelter.

1. Establish a chain of command that identifies who is to make the call to remove individuals from the field.
2. Name a designated weather watcher (a person who actively looks for the signs of threatening weather and notifies the chain of command if severe weather becomes dangerous).
3. Have a means of monitoring local weather forecasts and warnings.
4. Designate a safe shelter for each venue.
5. Use the flash-to-bang count to determine when to go to safety. By the time the flash-to-bang count approaches thirty seconds, all individuals should be already inside a safe structure. See method of determining flash-to-bang count below.
6. Once activities have been suspended, wait at least thirty minutes following the last sound of thunder or lightning flash before resuming an activity or returning outdoors.
7. Avoid being the highest point in an open field, in contact with, or in proximity to the highest point, as well as being on the open water. Do not take shelter under or near trees, flagpoles, or light poles.
8. Assume the lightning safe position (crouched on the ground, weight on the balls of the feet, feet together, head lowered, and ears covered) for individuals who feel their hair stand on end, skin tingle, or hear "crackling" noises. Do not lie flat on the ground.
9. Observe the following basic first aid procedures in managing victims of a lightning strike:

- Activate local EMS.
  - Lightning victims do not "carry a charge" and are safe to touch.
  - If necessary, move the victim with care to a safer location.
  - Evaluate airway, breathing, and circulation, and begin CPR if necessary.
  - Evaluate and treat for hypothermia, shock, fractures, and/or burns.
10. All individuals have the right to leave an athletic site in order to seek a safe structure if the person feels in danger of impending lightning activity, without fear of repercussions or penalty from anyone.

**Safe Shelter:**

A safe location is any substantial, frequently-inhabited building. The building should have four solid walls (not a dug out), electrical and telephone wiring, as well as plumbing, all of which aid in grounding a structure.

1. The secondary choice for a safer location from the lightning hazard is a fully-enclosed vehicle with a metal roof and the windows completely closed. It is important to not touch any part of the metal framework of the vehicle while inside it during ongoing thunderstorms.
2. It is not safe to shower, bathe, or talk on landline phones while inside of a safe shelter during thunderstorms. (Cell phones are okay.)

**Flash-to-Bang:**

To use the flash-to-bang method, begin counting when sighting a lightning flash. Counting is stopped when the associated bang (thunder) is heard. Divide this count by five to determine the distance to the lightning flash (in miles). For example, a flash-to-bang count of thirty seconds equates to a distance of six miles. Lightning has struck from as far away as ten miles from the storm center.

Suggested Lightning Apps:

- Pocket Perry
- CoachSmart
- Weatherbug

## **Severe Weather Chain of Command**

If in attendance, the Athletic Trainer will assume the role as designated weather watcher.

The Athletic Trainer will communicate information to the Head Game Official, Head Coach and Game Administrator.

Once the contest starts, the game official is responsible for the decision and has the authority to suspend an event. If there is not a game official, the Athletic Trainer will have the authority to suspend an event (practice or game).

School administrators will aid in the monitoring of the weather.

If the Athletic Trainer is not in attendance, the Head Coach will assign a staff person to be the weather watcher.

If a contest is suspended due to weather, the Head Coach is responsible to notify SAISD Athletic Administration.

SAISD Staff Responsibilities:

- Have cell phone available on field in case of emergency
- Designate staff person to meet and direct EMS to scene of emergency
- Have gate keys available in case of emergency
- Accompany any injured student or district personnel to the hospital
- Notify parents, guardians or next of kin. Inform administration
- Provide medical history when available
- Complete appropriate documentation

**SAISD Police and Administrators must make sure that emergency entrances remain open and clear of obstructions during games.**

### **Tornado Warning / Alert**

In the event of a tornado alert, an announcement will be made to clear the fields and proceed to safe shelter. Evacuate the outside area as soon as a tornado warning has been issued for San Antonio. Coaches will escort all athletes to the locker rooms and follow the school's emergency weather protocol. Spectators will be advised to move to safe shelter. The main building will be made available if necessary.

## **SAISD Cold Weather Guidelines for Outdoor Athletic Practice**

The health and safety of our students and staff members is the primary concern of all decisions made in regards to practicing in extreme cold. Head Coaches must use good judgment when making decisions about practicing outdoors in extremely cold weather. The following guidelines have been established in order to provide a safe and healthy environment for our students that are participating in outdoor activities. *It is the responsibility of all coaches to ensure these guidelines are being followed.* Please be aware that some athletes may be more susceptible than others to cold exposure. Some sports are more active than others. Coaches must take into consideration athletes that are very active during practice versus those who are standing around. Athletes should be dressed in warm-ups with extremities covered.

Gloves and head covers are recommended when applicable.

### **High School**

Wind Chill @ or below 30 degrees with no precipitation: Athletes may stay outside for 45 minutes with a 10-minute recovery / warm-up inside.

Wind Chill @ or below 32 degrees with precipitation: Athletes may stay outside for 30 minutes with 10-minute warm-up inside. Athletes must have dry cloths to go back outside.

Wind Chill @ 15 - 20 degrees with no precipitation: Athletes may stay outside for 30 minutes with 10-minute recovery / warm-up inside.

Wind Chill @ or below 25 degrees with precipitation: All practices will be inside.

Wind Chill @ or below 15 degrees: All practices will be inside.

### **Middle School**

Wind Chill @ or below 32 degrees: All practices will be inside.

Wind Chill @ or below 38 degrees with precipitation: All practices will be inside.

## **SAISD Hot Weather Guidelines for Outdoor Athletic Practice**

Head Coaches must use good judgment when making decisions about practicing outdoors in extremely hot weather. The following guidelines have been established in order to provide a safe and healthy environment for our students who are participating in outdoor activities. *It is the responsibility of all coaches to ensure these guidelines are being followed.*

### **Heat index of less than 100:**

- No restrictions

### **Heat index of 100-105**

- High school workouts limited to 3 hours, 10-minute break every 45 minutes.
- Middle school workouts limited to 1 1/2 hours, 10-minute break every 30 minutes.
- Cross country must stay on campus, limit runs to 1/2 normal length.
- Conditioning for football should take place without helmets and shoulder pads.
- Athletes allowed to remove helmets if not actively participating.
- Unrestricted access to water at all times.

### **Heat index of 106-110**

- High school workout limited to 1 1/2 hours, 10-minute break every 45 minutes
- Middle school workouts limited to 1 1/2 hours, 10-minute break every 30 minutes
- Unrestricted access to water at all times
- A 10-minute break should proceed all conditioning for high school
- Conditioning should take place without helmets/shoulder pads and not exceed 10 minutes
- Middle school conditioning should be moved indoors
- Extra conditioning/running cancelled
- Decrease repetitions and practice for overweight individuals
- Asthmatic athletes may remove themselves from workout without penalties or repercussions

### **Heat Index of 111-115**

- Middle school workouts should be moved indoors
- Shorts and T-shirts, helmets for high school workouts
- Practice shortened to 1 1/2 hours for high school
- Unrestricted access to water at all times
- 15-minute break every hour
- Conditioning should take place indoors
- Decrease repetitions and practice for overweight individuals
- Asthmatic athletes may remove themselves from workout without penalties or repercussions

### **Heat index of greater than 115**

- No outdoor workout

## **Emergency Procedures / Protocols**

In case of an emergency and 911 needs to be activated, the following protocols need to be followed:

1. Call 911 to activate EMS
2. Request EMS personnel to the address of the facility
3. Say “We have an injured person that needs emergency treatment”
4. Provide EMS the following information:
  - a. Name of person calling
  - b. Number of victims and their condition
  - c. First aid treatment initiated
  - d. Specific information to locate emergency scene:

# Emergency Contacts

**SAISD Police** - 210-271-3124

**SAISD Athletic Administration** – 210-554-2655

Todd Howey, Executive Director of Athletics  
 Brian Clancy, Asst. Athletic Director  
 Courtney Davis, Asst. Athletic Director  
 Gerald Gonzalez, Asst. Athletic Director  
 Malachi Nellum, Asst. Athletic Director  
 Barbara Wise, Asst. Athletic Director  
 Bruce McCrary, Athletic Programs Coordinator  
 Mike Perez, Facilities Coordinator
