### Needs Assessment Summary and Improvement Plan

**Definition/Purpose:** After your data analysis yields a summary of findings that results in a set of problem statements, the next step is to engage in the needs assessment process to identify root causes. The 5 steps of the root causes assessment include:  
 Step 1: Clarify and prioritize problem statements  
 Step 2: Establish the purpose of assessing root causes and establish the team  
 Step 3: Gather data  
 Step 4: Data analysis  
 Step 5: Root cause analysis

The needs assessment process is intended to safeguard against planning or implementing strategies before the root cause of a problem is understood.

<b>Problem Statements (PS):</b>  <i>Problem statements are carried over from Section V of the Campus Data Analysis tab OR Section VI of the District Data Analysis Summary tab.</i>	<b>PS 1:</b>	all tests administered is at 47%	is occurring because of Root Cause #1	<b>Root Cause 1:</b>	Due to teacher turnover and new/inexperienced teachers there is lack of knowledge in content, inability to effectively plan lessons and classroom management
	<b>PS 2:</b>	2 - 5% scoring advanced /exceeds in all contents	is occurring because of Root Cause #2	<b>Root Cause 2:</b>	Teachers expectations is focused on remediation versus acceleration of abled students.
	<b>PS 3:</b>	during the first 9 weeks 94 referrals of those 48 assigned Out of school suspension and 64 assigned in school suspension	is occurring because of Root Cause #3	<b>Root Cause 3:</b>	School wide systems still in progress and inexperienced teachers have poor classroom management skills.
	<b>PS 4:</b>	The reading score between all students and African American students is a 16% gap	is occurring because of Root Cause #4	<b>Root Cause 4:</b>	Teachers' knowledge of student sub groups. African American students is a small population and therefore may be overlooked due to teachers focusing on the whole group versus specific student needs
	<b>PS 5:</b>		is occurring because of Root Cause #5	<b>Root Cause 5:</b>	
	<b>PS 6:</b>		is occurring because of Root Cause #6	<b>Root Cause 6:</b>	
	<b>PS 7:</b>		is occurring because of Root Cause #7	<b>Root Cause 7:</b>	
	<b>PS 8:</b>		is occurring because of Root Cause #8	<b>Root Cause 8:</b>	
	<b>PS 9:</b>		is occurring because of Root Cause #9	<b>Root Cause 9:</b>	
	<b>PS 10:</b>		is occurring because of Root Cause #10	<b>Root Cause 10:</b>	

**Identified and Prioritized Root Causes:**  
 It is important to prioritize your Root Causes so that your improvement plan is targeted and focused. Although a Campus IP/District IP is critical to overall success, the targeted improvement plan is intended to address the specific reasons for low performance in the state accountability, PBM, or RF system. To ensure a targeted improvement plan, identify what focus areas will have the greatest impact on the reason(s) for low performance in an index, system safeguard, or PBM indicator and ensure those are your prioritized Root Causes.

*If the district or campus would like to identify more than 10 Root Causes contact the support specialist assigned to the review.*

**\*\*\* Important Notice! Improvement Required (IR) districts/campuses must complete the following Attestation Statement to fulfill TEC §39.106 requirements.\*\*\***

**Attestation Statement:**  By checking the box, I attest that an on-site needs assessment has been conducted according to TEC §39.106 (b) and recommendations were made by the intervention team when considered appropriate. In addition, these findings have been recorded and are available upon request.
