

Science, Engineering and Technology Magnet at Highlands High School

Visit NASA, get a summer internship at Brooks City Base, learn how to work with a team through a ropes course out in the woods – all of this and so much more is possible through the Science, Engineering, Architecture and Technology Magnet. Through the technology classes, you will learn how to take apart and rebuild a computer. In Architecture you will invent your own business and design the building it would be housed in. Get ready for college with coursework that is rigorous but fun at the same time. You will take classes in state-of-the-art technology labs. If you are into technology or science, this is the magnet for you.

High School Offerings

SAISD offers a wide variety of choices in education, particularly through its magnet programs: encompassing nine programs for high school students. We understand that education is not a “one size fits all” package, so we offer a breadth of programs to allow students to develop their talents or pursue special interests and career goals such as science, technology, the arts, language immersion, law/legal professions, medicine, and much more. These special learning programs are available

to students across Bexar County, those living within and outside the SAISD District. Come find out more about our offerings, and find a program to ignite your child's passion for learning.

Media Productions at Brackenridge High School

Media feeds the world with information 24 hours a day, 7 days a week. It's a fast-paced, cutting-edge industry that requires an understanding of journalism, fine arts, graphic arts, radio, television, speech and music. Experience the excitement and non-stop energy of the world of media production. Produce a news show and put your own documentary together. Don't just get the news – make the news. The Media Productions Magnet is where you start.

Health Professions Magnet at Edison High School

Anatomy, medical terminology, and health science technology – these skills are essential, if you are planning a career in healthcare. The Health Professions Magnet can teach you all these and more. Visit local hospitals three times a week as a junior or senior to shadow healthcare workers and observe procedures and clinical practice. This program offers you the opportunity to get accepted into a professional school, earn dual credit with local colleges and/or take state certification exams needed to become employed in a medical career. If you care about helping people and want to enter the healthcare industry, the Health

Professions Magnet is your first step.
Edison High School,
