

Welcome Edison Parents! Help links and documents for your use.

Hello Parents and Guardians,

Would you like to know how your child is doing on every assignment, test or project? Would you like to know your child's attendance for every period each day?

Well, SAISD has the answer for you.

The iData Portal is a computer website that will allow you to "log in" to your child's daily data.

This tool will enable you to use any computer with Internet access to monitor your child's progress and to better support your child and their teachers.

If you do not have Internet access with a printer at your home/work, the Edison Librarian can help you sign up for this access.

You do need to bring your driver's license. It is not a requirement that you do this, but it is a free service from the district.

2 ways to gain access to Parent iData Portal

1. At any computer w/ Internet access to register on-line at <https://idataportal.saisd.net/idataportals/MyChild.aspx>

2. Use the Edison Go Center or library during school hours/weekdays 8:30am-3:30pm. Check in at the main office for a visitor's pass. It takes approx. 15 minutes to register & access your child's grades & data for the first time.
