How To Talk to the Picture

<table>
<thead>
<tr>
<th>What?</th>
<th>Talk to the picture allows students an opportunity to match a name to a picture, an accomplishment to a person, and a quotation to a person in an interactive manner.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Why?</td>
<td>Students need to understand the accomplishments of different people throughout U.S. history as well as associate primary sources such as quotations to the people who said them.</td>
</tr>
</tbody>
</table>
| How?  | Process 1: (Set “A”)  
Divide students into groups of 3-4.  
Provide each team with the strips from the Names that “Go There” page.  
Provide each team with the strips from the What They Are Known For page.  
Provide each team with either 1 photo placard or an entire set of the photo placards.  
Explain to students that they are to match the name and accomplishment for each of the photo placards that they have (or the one that they are currently looking at).  
Explain to students that once they have matched a name and accomplishment to the face in the photo, they are to raise their hand and have their answers verified.  
(If one photo at a time) Once all teams have been verified, then have teams switch photos and repeat the process. Once teams have seen all of the photos, move on to Process 2.  
(If using the entire gallery per team) Once all teams have been verified, go to Process 2.  
Process 2: (Set “A” and “B”)  
Provide each team with the strips from the Their Tweets page.  
Explain to students that most of the people that they just examined lived before the development of Twitter.  
Explain to students that they are to reexamine the photos (either through the 1 at a time rotation or all at once) and match what a tweet from each of the historical figures might have said.  
Explain to students that once they have matched a tweet to the face in the photo, they are to raise their hand and have their answers verified. |
| When? | This is a good strategy when reviewing big ideas and/or units of study. |
