2020-2021 District Coordinator of School Improvement (DCSI) Superintendent Attestation

The superintendent must name a District Coordinator of School Improvement (DCSI) if their local education agency (LEA) meets one or more of the following criteria:

- the LEA, including those evaluated under alternative education accountability, was assigned an overall rating of F or must engage in unacceptable interventions due to TEC §39A.0545(b) or (c) or was assigned an overall rating of D or D in a domain;
- a campus within the LEA, including alternative education campuses, was assigned an overall rating of D or F or D in a domain;
- a campus was identified as in need of Comprehensive Support, Targeted Support, or Additional Targeted Support; or
- the LEA or campus described above has an appeal of a 2020 accountability rating pending.

The DCSI oversees the work of school improvement as a required member of the Campus Intervention Team (CIT), leads and participates in the needs assessment, including the Effective Schools Framework (ESF) self-assessment and ESF Diagnostic process, improvement planning, and monitoring processes, and ensures requirements and submissions are completed on time. The DCSI supports campus and district improvement by ensuring that the district creates the conditions for campus implementation of best practices. The district commitments in the ESF describe what the district does to create the foundations upon which school-based best practices are built, and the district's actions are captured in the Targeted Improvement Plan (TIP). The DCSI needs to be in a position to impact and/or influence the ESF district commitments aligned to campus needs. DCSIs are principal supervisors or other district-level leaders with direct responsibility for campuses that have been identified for improvement under state and/or federal accountability.

It is strongly encouraged that the DCSI be the supervisor of the principal for the campus with an unacceptable performance rating. If the DCSI is not the principal supervisor, the principal supervisor is required to be a member of the CIT per Texas Administrative Code §97.1063(b)(2).

I, the superintendent of schools, attest that I have read the DCSI Job Description, and that the DCSI selected can perform all the duties included in the job description.

Domain 1: Student Achievement 64% Approaches, 41% Meets, and 14% Masters Raw Score of 40, Scale Score of 69 for a D rating, Final Score of 7 Rationale: Looking at prior year STAAR, MAP data and teacher feedback we determined that goals for each proficiency band trying to increase sture proficiency in Approaches, Meets and Masters. Dut focusing on Meets and Masters. The goals set show an increase from a 49 (F) to a 69 (D) and it conjunctions with the other domains will earn us an overall rating of 70 (C). These goals are realistic in light of the COVID-19 and adjustments in it delivery, while still moving our campus to a C or higher level. Domain 2B: Rel. Performance Raw Score of 40, Scale Score of 76 for a C rating, Final Score of 70 or C Rationale: Intentional focus on identifying students who are struggling and the campus will intervene with AIP. Since the Eco. Dis.% maintained, we focus on this sub-pop to ensure student success. Domain 3: Closing the Gap Raw Score of 19, Scale Score of 55 for a F rating, Final Score of 70 or C. This score could increase to a roughly a Raw Score of 75 cale Score or D rating if no growth is including in accountability and the weights for the achievement and STAAR achievement are adjusted. Rationale: Intentional focus on identifying students who are struggling and the campus will intervene with CAIPs. By identifying the students who are struggling and the campus will intervene with CAIPs. By identifying the students who greatest gain and providing target intervention and superior Tier 1 instructions, students will make appropriate gains.

PRIORITIZED FOCUS AREAS

Complete each section below (please refer to your RPA):

Essential Action: From the drop-down menu, select 2-3 Essential Actions the campus has selected to prioritize in the 2020-2021 school year.

Rationale: Explain the reason(s) this campus chose to focus on these Essential Actions this year.

Capacity Building: For each prioritized focus area selected, list any internal/external capacity building efforts or cohorts in which you will participate this year. You can refer to the Vetted improvement Programs found here: https://texasesf.org/vetted-programs/

Barriers: For each prioritized focus area selected, list the barriers to implementation the campus may face throughout the year.

Desired Annual Outcome: For each prioritized focus area selected, create your annual goal that is specific, measurable, attainable, and realistic.

District Commitment Theory of Action: For each prioritized focus area selected, list what the district will do to support the campus to achieve its desired annual outcome. Be sure to reference the District Commitments found in the ESF located here: https://texasesf.org/framework/

	Prioritized Focus Area #1	Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	1.1	5.1	5.3
Rationale	In reflecting on last year, many key components have been put into place last year such as comprehensive list of responsibilities, weekly focus on student progress and deliberate observation and feedback cycles. Systems have been developed to focus on student and teacher performance and growth.	In reflecting upon last year, systems were in place to turn in lesson plans weekly, provide appropriate feedback to the lesson plans and align assessments to learning standards on a regular basis however this year we are being more clear with focused feedback.	In reflecting upon last year, we created a DDI calendar, planned training for Backwards Design training, but training did not get completed due to district and campus circumstances. Data walls were created in the PLC classroom and student binders were implemented.
How will the campus build capacity in this area? Who will you partner with?	per week and consistently monitoring, observing, modeling, coaching, and conferencing with instructional leaders.	The instructional leadership team assigned to review lesson plans weekly will calibrate and meet to discuss findings while problem solving as to which best practice can be implemented (conferencing, coaching, modeling, etc.) for teachers to improve their craft. Formative mini assessments (4 week) will be created by the teachers with guidance from the Instructional Leadership Team members and the 9 week assessments will be created by the Instructional Coaches and aligned with the TEKS taught during that time period.	The Instructional Leadership Team (ILT) will model, teach, guide, and coach the teachers how to drive their instruction based on assessment data. This will be done in unison with our Region 20 Texas Lesson Study consultant, Administrators, and Instructional Coaches.
Barriers to Address throughout this year		Teachers are being held accountable for lessons plans as well as receiving feedback from the leadership team, however the focus now needs to be on ensuring the lesson are being taught with fidelity to the lesson plan by visiting classroom regularly and giving feedback on the lesson. Lesson plans, daily activities and formative assessments need to align to the rigor of the standard. There is dedicated time for lesson planning with support provided by the instructional coach.	Data was used to develop a CIAP for whole group, small group, and individualized instruction. Grade level teams collaborate on the test after assessments are given. Data is reviewed and they develop CIAPs. Teachers need to have modeling and co-teach support to develop rigorous Tier 1 instruction with COVID challenges of in-person and virtual learning. Instructional Coaches reflect the support provided in their instructional snapshot tool as well as their instructional calendar.
How will you communicate these priorities to your stakeholders? How will create buy-in?	The principal will communicate these priorities to our stakeholders by reviewing processes and protocols on a regular basis with the instructional leadership team encouraging their input or changes needed to lead effectively.	The principal will communicate these priorities to our stakeholders by reviewing processes and protocols at the beginning of the year with teachers and the instructional leadership team. Feedback and concerns are welcome to streamline this process.	Reviewing data and goal setting every 5th and 1st week after formative assessments will take place to determine areas of needs for each grade level. Using our ILT to model and coach teachers through the DDI process, teachers will experience and witness how interventions and reteach should occur.
Desired Annual Outcome	Develop clear, written, and transparent campus leadership roles and responsibilities for weekly use as reflected in calendars and meetings. Use weekly calendars to show observations, feedback and leadership meetings. Communicate performance expectations for all staff with matching job responsibilities. Grade level leaders and campus leaders use consistent protocols and processes for PLCs which meet weekly and include weekly agendas and minutes. Campus leadership teams meet weekly to focus on student progress and formative data to show student growth and collective alignment.	Teachers consistently create and submit weekly lesson plans that are clear, effective, collaborative and differentiated using spreadsheet to determine completed lesson plans. The lesson plans will include formative assessments and exemplars with feedback from the instructional leadership team.	Develop, monitor and adjust meeting schedules and norms as needed with review every 9 weeks with the ILT. By the end of the year, 90% of grade levels will transition to facilitating meeting agendas and are in charge of completing minute-taking template as evidence by agenda minutes. Teacher leaders will be able to manage and facilitate their own PLCs. ILT will be in attendance or provide feedback in PLCs on a weekly basis.

If the district has effective systems for identifying and supporting struggling learners, then teachers at Huppertz will have a more effective means of If the district supports principals by protecting their time dedicated for school instructional leadership, then the leadership at Huppertz will be able to focus more on creating effective systems to grow internal leaders. District Commitment Theory of Action creating differentiated instructional supports for students in order to close the and act upon student data in order to create interventions for students who achievement gaps of our students. need extra support.

If district policies and practices support effective instruction in schools then teachers and administrators will be able to more effectively gather, analyze,

Desired 90-day Outcome	Develop clear, written, and transparent campus leadership roles and responsibilities. Use weekly calendars to show observations, feedback and leadership meetings. Monitor and adjust rosters, assignments, calendars, schedules, roles and responsibilities for the campus leadership team and teachers, as needed. Communicate performance expectations for all staff with matching job responsibilities. Use consistent protocols and processes for PLCs and grade level teams are leading their PLCs with support from ILT as needed. ILT meets weekly to focus on student progress and formative data.	Monitor the submission of lesson plans each week. 90% of teachers completing and submitting weekly lesson plans via Google Classroom. Monitor meeting agendas and minute-taking template effectiveness. 60% of PLCs can manage and facilitate their own PLCs. ILT in attendance or providing feedback to PLCs on a weekly basis at a rate of 70%.
Barriers to Address During this Cycle	Leadership roles and responsibilities were created and established, however due to not having an assistant principal it was extremely challenging completing all the required responsibilities. Re-establishing new roles and responsibilities will be a focus and making sure that the follow through of each role is completed consistently.	Teachers are being held accountable for lessons plans as well as receiving feedback from the leadership team, however the focus now needs to be on ensuring the lesson are being taught with fidelity to the plan by visiting classroom regularly and giving feedback on the lesson. Lesson plans, daily activities and formative assessments need to align to the rigor of the standard. There is dedicated time for lesson planning.	Data was used to develop a CIAP whole group, small group, and individualized instruction. Grade level teams collaborate on the test after assessments are given. Data is reviewed and they develop CIAPs. Teachers need to have modeling and co-teach support.
District Actions for this Cycle	Establish clear expectations for principals to implement the necessary systems to create the schedules, calendars, roles, responsibilities for team leaders and admin team. Expect admin team to submit all documentation by the end of October.	· · · · · · · · · · · · · · · · · · ·	Mandate that the campus submit PLC protocols, norms, and schedules to DCSI by the end of October. District Commitment Theory of Action	If the district supports principals by protecting their time dedicated for school instructional leadership, then the leadership at Huppertz will be able to focus more on creating effective systems to grow internal leaders.	If the district has effective systems for identifying and supporting struggling learners, then teachers at Huppertz will have a more effective means of creating differentiated instructional supports for students in order to close the achievement gaps of our students.	If district policies and practices support effective instruction in schools, then teachers and administrators will be able to more effectively gather, analyze, and act upon student data in order to create interventions for students who need extra support.

ACTION PLAN

In each row below, list the actions the campus is taking during this cycle to achieve its desired outcomes and address the identified barriers to implementation.

For each action step, indicate:

- the prioritized essential action it is aligned to,
- the start date/end date during this specific cycle,
- the resources needed to accomplish this task,
- the person(s) responsible for ensuring task is accomplished,
- the evidence that will be used to determine progress toward the action step, and
- the date evidence will be collected.

At the end of each cycle -

For each action step. (1) select the progress review status from the drop down menu, and (2) describe what next steps will be taken during the next cycle. For each action that has not been MET, please update column J with necessary adjustments or next steps for this action step.

REFLECTION and PLANNING for NEXT 90-DAY CYCLE

At the end of this cycle, please reflect on the implementation of your Targeted Improvement Plan thus far by responding to the questions below. Be sure to explain whether your outcomes and student performance goals were met and why or why not. List any action steps you will carry over to the next cycle and any new action steps you have discovered necessary for the next cycle. Be sure to add these action steps into the next cycle's action plan.										
We met 5 of the Prioritized Focus Areas because these were items that were in place last school and were carried over. Two items had some progress. Leadership team has had balance feedback and walkthroughs with the campus demands of safety and dealing with the increase of in per students. They will continue to calendarize and prioritize planning of feedback. Teachers are still transitioning to take ownership of the CIAPs.										
Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	We met one of the performance goals. Some areas were close, but due to COVID have impacted student performance and achievement dramatically.	g g								
	Carryover Action Steps	New Action Steps								
Review the necessary adjustments/next steps column above. What action steps from this cycle will you continue working on in the next cycle? What new action steps do you need to add to the next cycle?	We will maintain all of the action step except the first action step while increasing the expectations of the others.	We will add the following action steps: 1. Provide teachers an opportunity for additional paid time outside of the regular day to develop and write lessons that meet the requirements for hybrid teaching. 2. Provide at least one meeting per cycle for teachers and parents to review strategies of accurate data collection during class and testing experiences.

Monitor the submission of lesson plans each week. 94% of teachers completing and submitting weekly lesson plans via Google Classroom. Admin team providing feedback weekly to each lesson plan by Saturday 6pm at 94% completion rate.	Monitor and adjust meeting schedules and norms as needed. Monitor meeting agendas and minute-taking template effectiveness. 70% of PLCs can manage and facilitate their own PLCs. ILT in attendance or providing feedback to PLCs on a weekly basis at a rate of 80%.
_	Ensuring appropriate and timely calendarizing is being implemented for classroom visits.	Hybrid model for dealing with COVID situation may cause challenges on implementing the lessons with fidelity and the time it takes to develop quality lessons.	Data being accurate since not all students have been on campus for testing and assessments, parents are assisting with assessments for those students at home.
District Actions for this Cycle	Establish clear expectations for principals to implement the necessary systems to create the schedules, calendars, roles, responsibilities for team leaders and admin team. Expect admin team to submit all documentation by the end of February.	Mandate expectations for the principal to establish a system to provide timely and effective feedback for lesson plans each week. Monitor the campus principal's effectiveness with this expectation by doing bi-weekly spot checks.	Mandate that the campus submit PLC protocols, norms, and schedules to DCSI by the end of February. Spot check PLC minutes with the principal on a bi-weekly basis.
District Commitment Theory of Action	If the district supports principals by protecting their time dedicated for school instructional leadership, then the leadership at Huppertz will be able to focus more on creating effective systems to grow internal leaders.	If the district has effective systems for identifying and supporting struggling learners, then teachers at Huppertz will have a more effective means of creating differentiated instructional supports for students in order to close the achievement gaps of our students.	If district policies and practices support effective instruction in schools then teachers and administrators will be able to more effectively gather, analyze, and act upon student data in order to create interventions for students who need extra support.

REFLECTION and PLANNING for NEXT 90-DAY CYCLE

Huppertz ES

At the end of this cycle, please reflect on the implementation of your Targeted Improvement Plan thus far by responding to the questions below. Be sure to explain whether your outcomes and student performance goals were met and why or why not. List any action steps you will carry-over to the next cycle and any new action steps you have discovered necessary for the next cycle. Be sure to add these action steps into the next cycle's action plan.						
For each of the Prioritized Focus Areas, did you achieve your desired 90-day outcome? Why or why not? Did you achieve your student performance goals (see Student Data Tab)? Why or why not?	We met none of the student performance goals. However, we had significant growth from BOY in the all levels for Science and Writing because of the challenges due to face to face learning and remote learning this year. Teachers have been learning new ways to engage students virtually and we continue to work at increase the number of face to face students on campus as allowed by the district guidelines.

Essential Action: Pre-populates from the 'Foundations' tab.

Desired Annual Outcome: Pre-populates from the 'Foundations' tab.

For each Prioritized Focus Area, please complete the following sections:

Desired 90-Day Outcome: Describe the specific, measurable goal the campus plans to achieve by the end of this cycle for each prioritized focus area.

Barriers: For each prioritized focus area selected, list the barriers to implementation the campus may face during this cycle.

District Actions for this Cycle: List what the district will do to support the campus during this 90-day cycle to achieve the desired outcome.

Essential Action	1.1	5.1	5.3
Desired Annual Outcome	Develop clear, written, and transparent campus leadership roles and responsibilities for weekly use as reflected in calendars and meetings. Use weekly calendars to show observations, feedback and leadership meetings. Communicate performance expectations for all staff with matching job responsibilities. Grade level leaders and campus leaders use consistent protocols and processes for PLCs which meet weekly and include weekly agendas and minutes. Campus leadership teams meet weekly to focus on student progress and formative data to show student growth and collective alignment.	Teachers consistently create and submit weekly lesson plans that are clear, effective, collaborative and differentiated using spreadsheet to determine completed lesson plans. The lesson plans will include formative assessments and exemplars with feedback from the instructional leadership team.	Develop, monitor and adjust meeting schedules and norms as needed with review every 9 weeks with the ILT. By the end of the year, 90% of grade levels will transition to facilitating meeting agendas and are in charge of completing minute-taking template as evidence by agenda minutes. Teacher leaders will be able to manage and facilitate their own PLCs. ILT will be in attendance or provide feedback in PLCs on a weekly basis.
Desired 90-day Outcome	Ensure clear, written, and transparent campus leadership roles and responsibilities are being followed. Continue to use weekly calendars to show observations, feedback and leadership meetings. Communicate performance expectations for all staff with matching job responsibilities. REFLECTION and PLANNING for NEXT 90-DAY CYCLE

At the end of this cycle, please reflect on the implementation of your Targeted Improvement Plan thus far by responding to the questions below. Be sure to explain whether your outcomes and student performance goals were met and why or why not. List any action steps you will carry-over to the next cycle and any new action steps you have discovered necessary for the next cycle. Be sure to add these action steps into the next cycle's action plan.

For each of the Prioritized Focus Areas, did you achieve your desired 90-day outcome? Why or why not?	We met 5 of the areas and had significant progress in 4 areas. The campus met the 5 areas due consistent systems and focus on the Prioritized Focus Areas. The campus should monitor teacher actions, lesson plans, CIAPs and parent meetings systematically with fidelity and verify that it is being done on time.

END OF YEAR REFLECTION

Please reflect on the year's implementation of your Targeted Improvement Plan by responding to the questions below. Be sure to explain whether your campus achieved the desired annual outcome for each Prioritized Focus Area and why or why not.

	Prioritized Focus Area #1	Prioritized Focus Area #2	Prioritized Focus Area #3
Essential Action	1.1	5.1	5.3
Desired Annual Outcome	Develop clear, written, and transparent campus leadership roles and responsibilities for weekly use as reflected in calendars and meetings. Use weekly calendars to show observations, feedback and leadership meetings. Communicate performance expectations for all staff with matching job responsibilities. Grade level leaders and campus leaders use consistent protocols and processes for PLCs which meet weekly and include weekly agendas and minutes. Teacher leaders will be able to manage and facilitate their own PLCs. ILT will be in attendance or provide feedback in PLCs on a weekly basis.
Did the campus achieve the desired outcome? Why or why not?	The campus achieved the desired outcome because leadership roles and responsibilities were clear, consistent and reviewed in each cycle and adjusted as needed. Weekly calendarizing and instructional focus meetings were consistently held and the ILT worked collaboratively to prioritize this goal. Protocols were followed regularly and teacher ownership of the PLC process has begun and is maintaining.	The campus achieved their goals regarding lesson planning, collaboration with teachers, and feedback on lesson plans from the ILT.	The campus has met this goal because 100% of the grade levels are managing and facilitating their own PLCs.

CYCLE 4 90-DAY OUTCOMES (June-August)

The purpose of this 90-Day action plan is to prepare for the upcoming school year. The essential actions the campus prioritizes may have changed based on progress made in the school year or based on ESF diagnostic results. Please complete this portion of the plan by reflecting on your campus's progress this year, and identifying your focus areas for next year. This tab serves as the foundation for next year's Targeted Improvement plan.

Complete each section below:

Essential Action: From the drop-down menu, select 2-3 Essential Actions the campus has selected to prioritize in the 2021-2022 school year.

Rationale: Explain the reason(s) this campus chose to focus on these Essential Actions this year.

Communication: Describe how you will communicate your priorities to your stakeholders and how you will create buy-in from key stakeholder groups.

Desired Annual Outcome: For each prioritized focus area selected, create your annual goal that is specific, measurable, attainable, and realistic.

Desired 90-Day Outcome: Describe the specific, measurable goal the campus plans to achieve by the end of this cycle (June-August) for each prioritized focus area.

Capacity Building: For each prioritized focus area selected, list any internal/external capacity building efforts or cohorts in which you will participate this year. You can refer to the Vetted Improvement Programs found here: https://texasesf.org/vetted-programs/

Barriers: For each prioritized focus area selected, list the barriers to implementation the campus may face throughout the year.

District Actions for this Cycle: List what the district will do to support the campus to achieve the desired outcome during this 90-day cycle.

District Commitment Theory of Action: For each prioritized focus area selected, list what the district will do to support the campus to achieve its desired annual outcome. Be sure to reference the District Commitments found in the ESF located here: https://texasesf.org/framework/

Essential Action	1.1	5.1	5.3
Rationale	deliberate observation and feedback cycles that have developed the ILT. Systems have been developed to focus on student and teacher performance and growth. We are now at a point of refining and fine tuning these action items along with maintaining consistency for maximum results.	In reflecting on the 2020-21 school year, teachers consistently turned in weekly lesson plans and the ILT are provided consistent weekly feedback on the lesson plans and aligned assessments. We need to now our focus to ensuring that there is alignment between the lesson plans and what student learning is occurring in the classrooms are in sync and both are being given feedback during instructional snapshots and walkthroughs with fidelity.	In reflecting on the 2020-21 school year, student data collection was inconsistent for many reason due to COVID, low attendance of in person learning and remote instruction. More efficient ways for teachers to turn in CIAP data to the ILT need to be in place. Data walls need to be maintained and updated in all grade levels and student data binders will be implemented.

throughout the year	Ensuring appropriate and timely calendarizing is being implemented for classroom visits with follow through with the ILT members during Cabinet meetings.	Using time with fidelity, to ensure this is a priority for teachers and the ILT.	Student data is has been difficult to gather and many times inaccurate because not all students have been on campus for in person instruction nor have the online learners been attending classes with fidelity. Therefore, our testing and assessment results are not a true picture of what was taught and/or learned. Some parents have also been assisting students with assessments for remote learners even though the campuses discusses the importance of students completing assessments on their own with out parent assistance.
