Dear Parent / Guardian,

With students starting the 2020/2021 school year remotely, SAISD wanted to inform you about of your options to assess your students remotely and/or in person.

Assessments and screeners provide valuable information about students that teachers use to guide instruction and better support their students. This year SAISD Pre-K Students will take Circle Progress Monitoring assessment. The assessment is comprised of several assessments /screeners that administered in a one on one basis with parent input.

Remote assessments

Teachers will coordinate a day and time with parents of when all will meet via Zoom to complete the assessment(s). Parents, using the district provided device, will log into Zoom, via the link provided by the teacher, and ensure they can see the teacher and the teacher's screen. At this time parents will be asked to monitor their student but not provided answers for their student. Students will be asked to respond to questions on the screen and the teacher will record the response. Completion of the assessment may need to take place over several visits.

In-person assessments

Parents can request, through their student's teacher, an opportunity to have the assessments be conducted in a one on one setting with their teacher. Social distancing guidelines will be provided prior to the meeting. Parents will be asked to remain with students during they one on one time as the teacher will need to ask the parents questions to complete a portion of the observations. Completion of the assessment may need to take place over several visits.

We are truly excited to help you student grow and achieve. Please do not hesitate to contact us if you have any questions.

Sincerely,
