## BRIEF CRITERIA ANALYSIS

Baskin meets two of the three primary criteria. It has low enrollment and Facility use. In addition, Baskin's enrollment has declined by more than 200 students in five years.

## BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Maverick receiving students from Baskin, more students and families will gain access to:

- Enhanced fine arts opportunities and full-time music and art teachers; and
- A more robust dual language program.
