BRIEF CRITERIA ANALYSIS

Davis MS is the only comprehensive middle school in the Sam Houston HS neighborhood and due to its grade configuration and distance from other schools did not have any natural partners for rightsizing. As a result, it is projected that in 2024 there will be 549 students at Davis Middle School.

BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Davis MS receiving sixth grade students from Washington ES, more students and families will gain access to:

- Middle school athletic programs;
- Specialized programming for those that need it, including ALE and BSC on campus;
- Additional band, choir, and theater programming;
- More sustainable dual language and ESL programs at Davis; and
- Individualized and campus-wide support for social, emotional, and academic development with services provided through the City Year program.
