BRIEF CRITERIA ANALYSIS

While Smith meets all three primary criteria, it has a higher quality facility than the smaller Miller.

BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Smith receiving students from Miller, more students and families will gain access to:

- On-campus ESCE self-contained instruction;
- A full-time Communities in Schools (CIS) site coordinator; and
- A more sustainable dual language program, with bilingual instruction from experienced educators.
