## 2022-23 CHOICE IN / CHOICE OUT

## BRIEF CRITERIA ANALYSIS

Woodlawn Hills does not meet any of the primary criteria. However, it is one of two SAISD schools within a reasonable distance of Huppertz that also has the enrollment capacity to accept Huppertz students and offers an International Baccalaureate academic program. Woodlawn Hills was completely rebuilt around 2000 and remains in better condition than the Huppertz facility. It is projected that in 2024 there will be 637 students at Woodlawn Hills.

## BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Woodlawn Hills receiving students from Huppertz, more students and families will gain access to:

- On-campus ESCE self-contained instruction; and
- Full time art and music teachers.
