

# SAISD Safety and Extreme Weather Emergency Plans

Revised 4 April 2019

This handbook is to provide coaches and administrators guidelines in case of severe weather conditions. Severe weather and emergency situations may arise at any time during athletic events. Since weather is unpredictable, you can never give exact guidelines. Good common sense should also be utilized. Severe weather is defined as any weather-related situation requiring all athletes and spectators to move to safe shelter. Expedient action must be taken in order to prevent life-threatening conditions. Student safety takes priority over the completion of an athletic event.

Coaches and administrators are advised to review the following guidelines in to be prepared should a severe weather situation arise.

### **Athletic Safety and Compliance Coordinators**

Marli Carollo, Head Athletic Trainer

Bobby Luce, Head Athletic Trainer

Mark Ruiz, Head Athletic Trainer

Jenny Therkelsen Athletic Trainer

Thanks to all the Athletic Trainers who assisted with information

# Emergency Contacts

## **SAISD Police - 210-271-3124**

### **SAISD Athletic Trainers**

Samantha Armijo, Brackenridge High School	210-228-1200
Billy Marshall, Burbank High School	210-228-1210
Mark Ruiz, Edison High School	210-632-3329
Marli Carollo, Fox Tech High School	210-834-0348
Jenny Therkelsen, Highlands High School	210-438-6800
Jacob Gonzales, Sam Houston High School	210-978-7900
Charles Young, Jefferson High School	210-438-6570
Bobby Luce, Lanier High School	210-978-7910
Mollie Ayala, YWLA	210-364-8377
Camile Crawford	210-412-5155
Charlie Trevino	210-420-4012
Alex May	210-323-9210

### **SAISD Athletic Administration – 210-554-2655**

Todd Howey, Executive Director of Athletics  
Brian Clancy, Athletic Director  
Gerald Gonzalez, Asst. Athletic Director  
Barbara Wise, Asst. Athletic Director  
Malachi Nellum, Asst. Athletic Director  
Courtney Davis, Asst. Athletic Director  
Mike Barrera, Asst. Athletic Director

## **Safe Shelter:**

A safe location is any substantial, frequently inhabited building. The building should have four solid walls (not a dug out), electrical and telephone wiring, as well as plumbing, all of which aid in grounding a structure.

1. The secondary choice for a safer location from the lightning hazard is a fully enclosed vehicle with a metal roof and the windows completely closed. It is important to not touch any part of the metal framework of the vehicle while inside it during ongoing thunderstorms.
2. It is not safe to shower, bathe, or talk on landline phones while inside of a safe shelter during thunderstorms. (Cell phones are okay.)

## **Lightning Monitoring Options:**

### **Flash-to-Bang:**

To use the flash-to-bang method, begin counting when sighting a lightning flash. Counting is stopped when the associated bang (thunder) is heard. Divide this count by five to determine the distance to the lightning flash (in miles). For example, a flash-to-bang count of thirty seconds equates to a distance of six miles. Lightning has struck from as far away as ten miles from the storm center.

All outdoor Coaches should use the following Lightening Apps:

***Pocket Perry***

***Weather Bug***

# SAISD Lightning Policy / Safe Shelter

The UIL Lightning Safety policy will be followed.

If severe weather and / or lightning are detected, an announcement will be made to clear the fields and proceed to safe shelter. Safe shelter locations are listed in the table for each school or activity site.

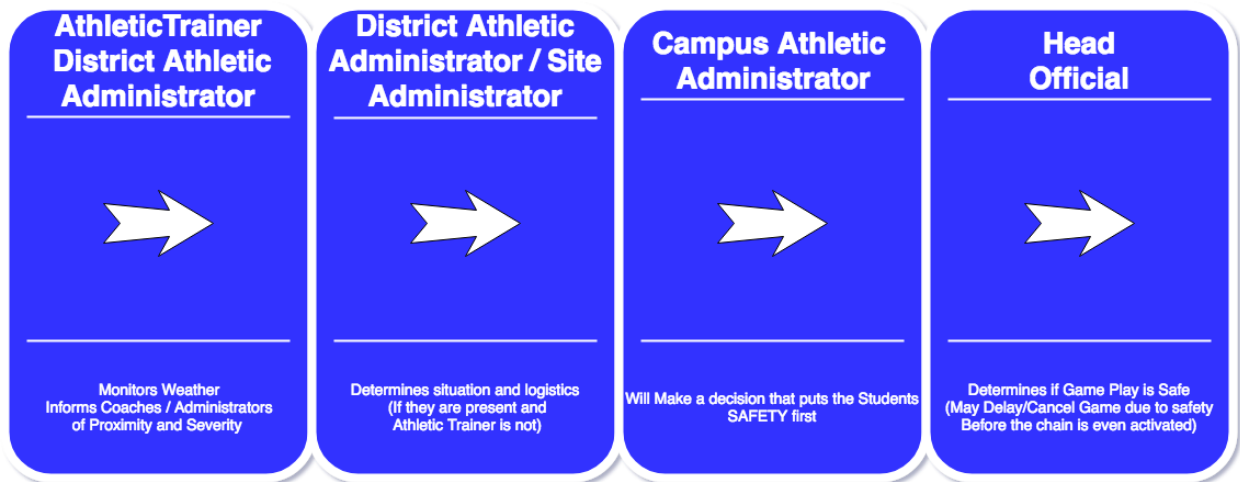

Athletes and coaches will proceed to the nearest building. The coaches will provide an area for visiting teams and coaches. Spectators must be advised to clear the fields and proceed to safe shelter.

1. Follow the Chain of Command Chart below that identifies who is to make the call to remove individuals from the field.
2. Name a designated weather watcher - a person who actively looks for the signs of threatening weather and notifies the chain of command if severe weather becomes dangerous. (Athletic Trainer, Head Coach, Athletic Administrator)
3. Have a means of monitoring local weather forecasts and warnings. (See List of Options Below)
4. Designate a safe shelter for each venue.
5. Use the flash-to-bang count (Described below) to determine when to go to safety. See method of determining flash-to-bang count below.
6. Once activities have been suspended, wait at least thirty minutes following the last sound of thunder or lightning flash within a **10-mile radius** before resuming an activity or returning outdoors. Once there has been on Lighting Strike for **30 minutes**, play may resume.
7. Avoid being the highest point in an open field, in contact with, or in proximity to the highest point, as well as being on the open water. Do not take shelter under or near trees, flagpoles, or light poles.
8. Assume the lightning safe position (crouched on the ground, weight on the balls of the feet, feet together, head lowered, and ears covered) for individuals who feel their hair stand on end, skin tingle, or hear "crackling" noises. Do not lie flat on the ground.

Observe the following basic first aid procedures in managing victims of a lightning strike:

- Activate local EMS.
  - Lightning victims do not "carry a charge" and are safe to touch.
  - If necessary, move the victim with care to a safer location.
  - Evaluate airway, breathing, and circulation, and begin CPR if necessary.
  - Evaluate and treat for hypothermia, shock, fractures, and/or burns.
9. All individuals have the right to leave an athletic site in order to seek a safe structure if the person feels in danger of impending lightning activity, without fear of repercussions or penalty from anyone.

## SAISD Severe Weather Chain of Command

- In the Event of Sever Weather, the Chain of Command will be followed in this order if in attendance:
  1. Athletic Trainer
  2. Athletic Administrator
  3. Head Coach / Assistant Coach
  4. Game Officials
- If the Athletic Trainer is not in attendance, the Head Coach will assign a staff person to monitor the weather.

**NOTE: Athletic Administration must be contacted prior to any events being cancelled.**

### SAISD Staff Responsibilities:

- Have cell phone available on field in case of emergency
- Designate staff person to meet and direct EMS to scene of emergency
- Have gate keys available in case of emergency
- Accompany any injured student or district personnel to the hospital
- Notify parents, guardians or next of kin. Inform administration
- Provide medical history when available
- Complete appropriate documentation

**SAISD Police and Administrators must make sure that emergency entrances remain open and clear of obstructions during games.**

## **SAISD Cold Weather Guidelines for Outdoor Athletic Events**

The health and safety of our students and staff members is the primary concern of all decisions made in regards to practicing in extreme cold. Head Coaches must use good judgment when making decisions about practicing outdoors in extremely cold weather. The following guidelines have been established in order to provide a safe and healthy environment for our students that are participating in outdoor activities. *It is the responsibility of all coaches to ensure these guidelines are being followed.*

**Cold weather is defined as any temperature that can negatively affect the body's regulatory system. Temperatures do not have to be freezing to be harmful. Individuals participating in outdoor activity in cold, wet, or windy conditions are at risk for environmental cold injuries.**

### **Signs of Cold Exposure:**

- Breathing of cold air can trigger asthma attack
- Coughing, chest tightness, burning sensation in throat and nasal passage
- Reduction of strength, power, endurance, and aerobic capacity
- Core body temperature reduction, causing reduction of motor output

### **Signs of Cold Recognition:**

- Shivering, a means for the body to generate heat
- Excessive shivering contributes to fatigue, loss of motor skills
- Numbness and pain in fingers, toes, ears, and exposed facial tissue
- Drop in core temperature; athlete exhibits sluggishness, slowed speech, disoriented

**Cold Weather Caution:** When the temperature or wind-chill (which is lower than actual temperature) is from 40°F-32°F.

- No modification of practice, but a warning will be given to coaches and athletes.
- Coaches and Athletic Trainers should emphasize the importance of following the UIL Cold Weather Illness Recommendations.
- Keep a very close watch on those "high risk" athletes.

**NOTE: Middle School Outdoor Events may be cancelled.**

### **Cold Weather Warning:**

- When temperature or wind chill is from 32°F - 20°F, there may be modified participation of outside practices and games.
- Instruct athletes on how to properly dress for the cold weather- warm-ups, hoods/knit caps, and gloves if athlete has them
- Warm-up will start indoors (stretching, etc.) not to reduce the 45 minutes of outside time.
- Practice should keep an individual moving, and all involved. Practices should avoid a big sweat in the first 20 minutes, and eliminate the athletes from being wet and sitting around watching in the cold temperatures.

**NOTE: Middle School outdoor activities will be cancelled**

### **For All Levels:**

- There may be modified participation of outside practices and games.
- Instruct athletes on how to properly dress for the cold weather- warm-ups, hoods/knit caps, and gloves if athlete has them
- Warm-up will start indoors (stretching, etc.) not to reduce the 45 minutes of outside time.
- Practice should keep an individual moving and all involved. Practices should avoid a big sweat in the first 20 minutes, and eliminate the athletes from being wet and sitting around watching in the cold temperatures.
- Wind Chill @ or below 32 degrees with no precipitation: Athletes may stay outside for 45 minutes with a 10-minute recovery / warm-up inside.

### **Cold Weather Termination:**

**DRY** - When temperature or wind chill reaches below 20°F, there may be a termination of outside practices and games.

**WET** – When temperature or wind chill reaches 32°F or below, there may be termination of outside practices and games.

## **SAISD Hot Weather Guidelines for Outdoor Athletic Practice**

Head Coaches must use good judgment when making decisions about practicing outdoors in extremely hot weather. The following guidelines have been established in order to provide a safe and healthy environment for our students who are participating in outdoor activities. *It is the responsibility of all coaches to ensure these guidelines are being followed.*

### **Heat index of less than 100:**

- No restrictions

### **Heat index of 100-105**

- High school workouts limited to 3 hours, 10-minute break every 45 minutes.
- Middle school workouts limited to 1 1/2 hours, 10-minute break every 30 minutes.
- Cross country must stay on campus; limit runs to 1/2 normal length.
- Conditioning for football should take place without helmets and shoulder pads.
- Athletes allowed to remove helmets if not actively participating.
- Unrestricted access to water at all times.

### **Heat index of 106-110**

- High school workout limited to 1 1/2 hours, 10-minute break every 45 minutes
- Middle school workouts limited to 1 1/2 hours, 10-minute break every 30 minutes
- Unrestricted access to water at all times
- A 10-minute break should proceed all conditioning for high school
- Conditioning should take place without helmets/shoulder pads and not exceed 10 minutes
- Middle school conditioning should be moved indoors
- Extra conditioning/running cancelled
- Decrease repetitions and practice for overweight individuals
- Asthmatic athletes may remove themselves from workout without penalties or repercussions

### **Heat Index of 111-115**

- Middle school workouts should be moved indoors
- Shorts and T-shirts, helmets for high school workouts
- Practice shortened to 1 1/2 hours for high school
- Unrestricted access to water at all times
- 15-minute break every hour
- Conditioning should take place indoors
- Decrease repetitions and practice for overweight individuals
- Asthmatic athletes may remove themselves from workout without penalties or repercussions

### **Heat index of greater than 115**

- No outdoor workout

## **Emergency Procedures / Protocols**

In case of an emergency and 911 needs to be activated, the following protocols need to be followed:

1. Call 911 to activate EMS
2. Request EMS personnel to the address of the facility
3. Say the following:

***“We have an injured person that needs emergency treatment”***

4. Provide EMS the following information:
  - a. Name of person calling
  - b. Number of victims and their condition
  - c. First aid treatment initiated
  - d. Specific information to locate emergency scene:

## **Lockdown**

**In the event of a lockdown situation occurring during practice or game, coaches will follow the SAISD procedures for lockdown. Athletes and coaches of opposing teams will be led by the coaches of the home team to a safe area.**
